Full job description

Your new company

Our client is a national logistic and transport company with sites across Australia. In Sydney they have two dedicated workshops to look after all of their assets. They are both located in the South West of Sydney and have built in facilities to complete service and repairs.

Your new role

As a heavy vehicle mechanic you will be working on all trucks, trailers and medium rigged vans. Your duties will include but not be limited to:

- All servicing (oil filters, breaking engine oils)
- Drive-line servicing and repairs
- Component repairs and rebuilds
- Electrical diagnostics

What you'll need to succeed

In your role as a diesel mechanic you will be required to have experience working with diesel engines, pneumatic breaking systems and ideally have previous experience within fleet maintenance. Additionally, you will need:

- Cert III Heavy Vehicle Mechanic
- HR Licence
- Experience with waste vehicles
- Understanding of electrical diagnosis

What you'll get in return

You will get an attractive hourly rate with the opportunity to get consistent overtime. You will also have job security given the nature of the transport industry.

What you need to do now

If you're interested in this role, click 'apply now' to forward an up-to-date copy of your CV to Paul.Gallagher@Hays.com.au, or call Paul Gallagher now on 02 8860 1619.

If this job isn't quite right for you but you are looking for a new position, please contact us for a confidential discussion on your career.
